

# tehalit.LFH fara halogen

În spatiile cu risc ridicat de incendii este recomandata utilizarea sistemelor de canal cablu fara halogen. Consecintele unui posibil incendiu sunt reduse datorita faptului ca reactiile chimice tipice cauzate de halogeni nu vor avea loc, reducând daunele materiale. Fiind un sistem complet de management al cablurilor fara halogen, tehalit.LFH este solutia ideala pentru cladirile publice care necesita utilizarea materialelor plastice fara halogeni.
